## INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements regarding the expectations of Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”), including, but not limited to, the timing of the closing of the AR Packaging Group AB acquisition, the timing of payments under the Tax Receivable Agreement (as hereinafter defined), startup charges for the new paperboard machine in Kalamazoo, Michigan, the charges relating to the disposal of idle assets, the reclassification of pre-tax gains to earnings, the availability of U.S. federal income tax attributes to offset U.S. federal income taxes and the timing related to the Company's future U.S. federal income tax payments, charges for exit activities, capital investment, depreciation and amortization, interest expense, pension plan contributions in this report constitute “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties that could cause actual results to differ materially from the Company's historical experience and its present expectations. These risks and uncertainties include, but are not limited to, the effects of the COVID-19 pandemic on the Company's operations and business, inflation of and volatility in raw material and energy costs, changes in consumer buying habits and product preferences, competition with other paperboard manufacturers and converters, product substitution, the Company's ability to implement its business strategies, including strategic acquisitions, the Company's ability to successfully integrate acquisitions, productivity initiatives and cost reduction plans, the Company's debt level, currency movements and other risks of conducting business internationally, and the impact of regulatory and litigation matters, including those that could impact the Company's ability to utilize its U.S. federal income tax attributes to offset taxable income or U.S. federal income taxes and those that impact the Company's ability to protect and use its intellectual property. Undue reliance should not be placed on such forward-looking statements, as such statements speak only as of the date on which they are made and the Company undertakes no obligation to update such statements, except as may be required by law. Additional information regarding these and other risks is contained in Part I, "Item 1A., Risk Factors" of the Company's 2020 Annual Report on Form 10-K, and in other filings with the Securities and Exchange Commission.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**NOTE 1 — GENERAL INFORMATION**

*Nature of Business*

Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”) is committed to providing consumer packaging that makes a world of difference. The Company is a leading provider of sustainable, fiber-based packaging solutions for a wide variety of products to food, beverage, foodservice and other consumer products companies. The Company operates on a global basis, is one of the largest producers of folding cartons in the United States (“U.S.”) and holds leading market positions in coated-recycled paperboard (“CRB”), coated unbleached kraft paperboard (“CUK”) and solid bleached sulfate paperboard (“SBS”).

The Company’s customers include many of the world’s most widely recognized companies and brands with prominent market positions in beverage, food, foodservice, and other consumer products. The Company strives to provide its customers with innovative sustainable packaging solutions designed to deliver marketing and performance benefits at a competitive cost by capitalizing on its low-cost paperboard mills and converting facilities, its proprietary carton and packaging designs, and its commitment to quality and service.

On January 1, 2018, GPHC, a Delaware corporation, International Paper Company, a New York corporation (“IP”), Graphic Packaging International Partners, LLC, a Delaware limited liability company formerly known as Gazelle Newco LLC and a wholly-owned subsidiary of the Company (“GPIP”), and Graphic Packaging International, LLC, a Delaware limited liability company formerly known as Graphic Packaging International, Inc. and a direct subsidiary of GPIP (“GPIL”), completed a series of transactions pursuant to an agreement dated October 23, 2017, among the foregoing parties (the “Transaction Agreement”). Pursuant to the Transaction Agreement (i) a wholly-owned subsidiary of the Company transferred its ownership interest in GPIL to GPIP; (ii) IP transferred its North America Consumer Packaging (“NACP”) business to GPIP, which was then subsequently transferred to GPIL; (iii) GPIP issued membership interests to IP, and IP was admitted as a member of GPIP; and (iv) GPIL assumed certain indebtedness of IP (the “NACP Combination”).

During 2020, GPIP purchased 32.5 million partnership units from IP for \$500 million in cash, fully redeeming the 18.2 million partnership units that were required to be redeemed in cash.

On February 16, 2021, the Company announced that IP had notified the Company of its intent to exchange additional partnership units. Per an agreement between the parties, on February 19, 2021, GPIP purchased 9.3 million partnership units from IP for \$150 million in cash, and IP exchanged 15.3 million partnership units for an equivalent number of shares of GPHC common stock.

On May 21, 2021, IP exchanged its remaining 22.8 million partnership units for an equivalent number of shares of GPHC common stock. As a result, IP has no ownership interest remaining in GPIP as of May 21, 2021.

In connection with both the February 19, 2021 and May 21, 2021 exchanges, pursuant to elections under Section 754 of the Internal Revenue Code, the Company expects to obtain an increase with respect to the tax basis in the assets of GPIP and certain of its subsidiaries. As a result, payments pursuant to the Tax Receivable Agreement (“TRA”), executed in connection with the formation of the partnership on January 1, 2018, are required. The TRA provides for the payment by the Company to IP of 50% of the present value of any tax benefits projected to be realized by the Company upon IP’s exchange of its membership interest into GPHC stock. As such, the Company recorded TRA liabilities of \$43 million and \$66 million, for the February 19, 2021 and May 21, 2021 exchanges, respectively. The TRA liabilities were recorded through adjustments to Capital in Excess of Par Value during the first and second quarters of 2021, respectively. In accordance with the terms of the TRA, the Company settled the liability for the February exchange during the third quarter and expects the liability for the May exchange to be settled during the fourth quarter of 2021. Additionally, the Company recorded an adjustment through Capital in Excess of Par Value to decrease its net domestic Deferred Tax Liability (“DTL”) by \$58 million in connection with the February exchange and \$109 million in connection with the May exchange. The decrease in the DTL reflects the change in the outside basis difference associated with the Company’s investment in the partnership and includes the impact of the tax basis step up triggered by the exchanges pursuant to Section 754 of the Internal Revenue Code in addition to other changes to book and tax basis as a result of the Company’s increased ownership interest in the partnership.

The Company’s Condensed Consolidated Financial Statements include all subsidiaries in which the Company has the ability to exercise direct or indirect control over operating and financial policies. Intercompany transactions and balances are eliminated in consolidation. Certain reclassifications have been made to prior year amounts to conform to current year presentation.

**GRAPHIC PACKAGING HOLDING COMPANY**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

In the Company's opinion, the accompanying Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary to state fairly the financial position, results of operations and cash flows for the interim periods. The Company's year-end Condensed Consolidated Balance Sheet data was derived from audited financial statements. The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all the information required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for complete financial statements. Therefore, these Condensed Consolidated Financial Statements should be read in conjunction with GPHC's Form 10-K for the year ended December 31, 2020. In addition, the preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates and changes in these estimates are recorded when known.

**Revenue Recognition**

The Company has two primary activities, manufacturing and converting paperboard, from which it generates revenue from contracts with customers. Revenue is disaggregated primarily by geography and type of activity as further explained in "Note 11 — Segment Information." All reportable segments and the Australia and Pacific Rim operating segments recognize revenue under the same method, allocate transaction price using similar methods, and have similar economic factors impacting the uncertainty of revenue and related cash flows.

Revenue is recognized on the Company's annual and multi-year supply contracts when the Company satisfies the performance obligation by transferring control over the product or service to a customer, which is generally based on shipping terms and passage of title under the point-in-time method of recognition. For the three months ended September 30, 2021 and 2020, the Company recognized \$1,775 million and \$1,691 million, respectively, of revenue from contracts with customers. For the nine months ended September 30, 2021 and 2020, the Company recognized \$5,151 million and \$4,891 million, respectively, of revenue from contracts with customers.

The transaction price allocated to each performance obligation consists of the stand-alone selling price, estimates of rebates and other sales or contract renewal incentives, and cash discounts and sales returns ("Variable Consideration") and excludes sales tax. Estimates are made for Variable Consideration based on contract terms and historical experience of actual results and are applied to the performance obligations as they are satisfied. Purchases by the Company's principal customers are manufactured and shipped with minimal lead time, therefore performance obligations are generally satisfied shortly after manufacturing and shipment. The Company uses standard payment terms that are consistent with industry practice.

The Company's contract assets consist primarily of contract renewal incentive payments to customers which are amortized over the period in which performance obligations related to the contract renewal are satisfied. As of September 30, 2021 and December 31, 2020, contract assets were \$15 million and \$15 million, respectively. The Company's contract liabilities consist principally of rebates, and as of September 30, 2021 and December 31, 2020 were \$60 million and \$56 million, respectively.

**Accounts Receivable and Allowances**

The Company has entered into agreements to sell, on a revolving basis, certain trade accounts receivable to third party financial institutions. Transfers under these agreements meet the requirements to be accounted for as sales in accordance with the *Transfers and Servicing* topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification (the "Codification"). The loss on sale is not material and is included in Other (Income) Expense, Net line item on the Condensed Consolidated Statement of Operations. The following table summarizes the activity under these programs for the nine months ended September 30, 2021 and 2020, respectively:

<i>In millions</i>	Nine Months Ended September 30,	
	2021	2020
Receivables Sold and Derecognized	\$ 2,230	\$ 2,077

Pledged Receivables at September 30	154	267

<sup>(a)</sup>Included in Other Current Assets on the Condensed Consolidated Balance Sheet and represents a beneficial interest in the receivables sold to the financial institutions, which is a Level 3 fair value measure.

The Company also participates in supply chain financing arrangements offered by certain customers and has entered into various factoring arrangements that also qualify for sale accounting in accordance with the *Transfers and Servicing* topic of the FASB Codification. For the nine months ended September 30, 2021 and 2020, the Company sold receivables of \$493 million and \$238 million, respectively, related to these factoring arrangements.

Receivables sold under all programs subject to continuing involvement, which consists principally of collection services, were \$661 million and \$621 million as of September 30, 2021 and December 31, 2020, respectively.

**Share Repurchases and Dividends**

During the first nine months of 2021, the Company's board of directors declared three regular quarterly dividends of \$0.075 per share of common stock to shareholders of record as follows:

Date Declared	Record Date	Payment Date
February 25, 2021	March 15, 2021	April 5, 2021
May 26, 2021	June 15, 2021	July 5, 2021
July 29, 2021	September 15, 2021	October 5, 2021

On January 28, 2019, the Company's board of directors authorized a share repurchase program to allow the Company to purchase up to \$500 million of the Company's issued and outstanding shares of common stock through open market purchases, privately negotiated transactions and Rule 10b5-1 plans (the "2019 share repurchase program"). During the first nine months of 2021, the Company did not repurchase any shares of its common stock under the 2019 share repurchase program. During the nine months ended September 30, 2020, the Company repurchased 18,896,538 shares of its common stock at an average price of \$13.31 under the 2019 share repurchase program. As of September 30, 2021, the Company has \$147 million available for additional repurchases under the 2019 share repurchase program.

**Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net**

The following table summarizes the transactions recorded in Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net in the Condensed Consolidated Statements of Operations:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020

Exit Activities <sup>(a)</sup>	3	4	11	21
<b>Total</b>	<b>\$ 33</b>	<b>\$ 9</b>	<b>\$ 79</b>	<b>\$ 48</b>

<sup>(a)</sup> Relates to the Company's CRB mills, converting facility closures and the PM1 containerboard machine exit activities (see "Note 14 — Exit Activities").

**2021**

During 2019, the Company announced its plans to invest in a new CRB paper machine in Kalamazoo, Michigan. At the time of the announcement, the Company expected to close two of its smaller CRB Mills in 2022 in order to remain capacity neutral. During the third quarter of 2021, the Company decided to continue to operate one of the two original smaller CRB mills at least through 2022. Severance, retention, and other charges associated with this project are included in Exit Activities in the table above in the three and nine months ended September 30, 2021 and 2020. For more information, see "Note 14 — Exit Activities." The Company also expects to incur start-up charges of approximately \$15 million for the new CRB paper machine in 2021. These start-up charges are included in Exit Activities in the table above.

During 2019, the Company began a three-year program to dismantle and dispose of idle and abandoned assets primarily at the paperboard mills. Charges related to this program during the three months ended September 30, 2021 and 2020 were \$4 million. Charges related to this program during the nine months ended September 30, 2021 and 2020 were \$13 million and \$8 million, respectively. Expected charges for this program for 2021 are approximately \$26 million. Charges associated with this program are included in Shutdown and Other Special Charges in the table above.

On May 12, 2021, the Company announced its intent to acquire all of the shares of AR Packaging Group AB ("AR Packaging"), Europe's second largest producer of fiber-based consumer packaging, for approximately \$1.45 billion in cash, subject to customary adjustments. The costs associated with this acquisition are included in Charges Associated with Business Combinations in the table above. The \$1.45 billion acquisition price will be paid in Euros at close. As such, on May 14, 2021, the Company entered into deal contingent, foreign exchange forward contracts, with no upfront cash cost, to hedge 700 million Euros of the acquisition price. These forward contracts expire if the deal terminates or does not close by May 13, 2022 and are accounted for as derivatives under ASC 815, *Derivatives and Hedging*. Unrealized gains and losses resulting from these contracts are recognized in earnings and are included in Charges Associated with Business Combinations in the table above. For more information, see "Note 7 — Financial Instruments and Fair Value Measurement." The Company expects the AR Packaging acquisition to close in early November 2021.

On July 1, 2021, the Company acquired substantially all the assets of Americraft Carton, Inc. ("Americraft"), the largest remaining independent folding carton converter in North America for \$292 million subject to customary working capital true-up. The acquisition included seven converting facilities across the United States and is reported within the Americas Paperboard Packaging reportable segment. Charges associated with this acquisition are included in Charges Associated with Business Combinations in the table above. For more information, see "Note 3 — Business Combinations."

2020

On January 31, 2020, the Company acquired a folding carton facility from Quad/Graphics, Inc. ("Quad"), a commercial printing company. The converting facility is located in Omaha, Nebraska and is included in the Americas Paperboard Packaging reportable segment. The Company paid \$41 million using existing cash and borrowings under its revolving credit facility. The costs associated with this acquisition are included in Charges Associated with Business Combinations in the table above. During the first quarter of 2021, the acquisition accounting for Quad was finalized.

In March 2020, the Company made the decision to close the White Pigeon, Michigan CRB mill and shut down the PM1 containerboard machine in West Monroe, Louisiana. Charges associated with these projects are included in Exit Activities in the table above. For more information, see "Note 14 — Exit Activities."

On April 1, 2020, the Company acquired the Consumer Packaging Group business from Greif, Inc. ("Greif"), a leader in industrial packaging products and services. The acquisition included seven converting facilities across the United States and will allow the Company to increase its mill-to-converting plant integration over time. The Company paid approximately \$80 million using existing cash and borrowings under its revolving credit facility. The costs associated with this acquisition are included in Charges Associated with Business Combinations in the table above. During the second quarter of 2021, the acquisition accounting for Greif was finalized.

In June 2020, the Company made the decision to close certain converting facilities that were acquired from Greif. The Burlington, North Carolina converting facility and the Los Angeles, California converting facility were closed during 2020. Charges associated with these projects are included in Exit Activities in the table above. For more information, see "Note 14 — Exit Activities."

The Company has established estimated liabilities related to the partial or complete withdrawal from certain multi-employment benefit plans for facilities which have been closed. During the second quarter of 2020, the Company increased its estimated withdrawal liability for these plans by \$12 million, which is included in Shutdown and Other Special Charges in the table above. For more information, see "Note 6 — Pensions and Other Postretirement Benefits."

During the second quarter of 2020, the Company made one-time payments to front-line production employees and made contributions to local food banks in the communities where our manufacturing operations are located. The charges associated with these payments are included in Shutdown and Other Special Charges in the table above.

***Adoption of New Accounting Standards***

In December 2019, the FASB issued ASU No. 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*. This amendment modifies ASC 740 to simplify the accounting for income taxes. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2020. The Company adopted this new guidance during the three months ended March 31, 2021. The Company's adoption did not result in any changes in accounting principle upon transition and the impact to the Company's overall financial statements is immaterial.

***Accounting Standards Not Yet Adopted***

In March 2020, the FASB issued ASU No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. This standard provides temporary optional expedients and exceptions for applying GAAP guidance on contract modifications and hedge accounting to ease the financial reporting burdens of the expected market transition from the LIBOR and other interbank offered rates to alternative reference rates, such as the Secured Overnight Financing Rate ("SOFR"). The ASU can be adopted after its issuance date through December 31, 2022. The Company is currently evaluating the impact of this new accounting guidance.

**NOTE 3 — BUSINESS COMBINATIONS**

On July 1, 2021, the Company acquired substantially all of the assets of Americraft. The Company paid approximately \$292 million, subject to customary working capital adjustments using existing cash and borrowings under its revolving credit facility. The acquisition included seven converting facilities across the United States.

The purchase price for Americraft has been preliminarily allocated to assets acquired and liabilities assumed based on the estimated fair values as of the acquisition date and is subject to adjustments in subsequent periods as management finalizes its purchase price allocation, including the third-party valuations. Management believes that the purchase price attributable to goodwill represents the benefits expected as the acquisition was made to continue to expand its product offering, integrate paperboard from the Company's mills and to further optimize the Company's supply chain footprint. The assigned goodwill, which is deductible for tax purposes, will be reported within the Americas Paperboard Packaging reportable segment.

The preliminary purchase price allocation as of September 30, 2021 is as follows:

<i>In millions</i>	Amounts Recognized as of Acquisition Date

**NOTE 4 — DEBT***2021*

On March 8, 2021, GPIL completed a private offering of \$400 million aggregate principal amount of its 0.821% Senior Secured Notes due 2024 and \$400 million aggregate principal amount of its 1.512% Senior Secured Notes due 2026. The net proceeds were used by the Company to repay a portion of the outstanding borrowings under GPIL's term loan credit facilities, which is under its senior secured credit facility.

On April 1, 2021, GPIL entered into a Fourth Amended and Restated Credit Agreement (the "Fourth Amended and Restated Credit Agreement") to extend the maturity date of certain of its senior secured term loan facilities and senior secured revolving credit facilities and to amend certain other terms of the agreement, including revised debt covenants and collateral requirements. Under the terms of the agreement, \$975 million of the Company's senior secured term loan facilities remains outstanding. The Company added approximately \$400 million to its senior secured revolving credit facilities. \$550 million of the senior secured term loan facilities and all of the senior secured revolving credit facility loans continue to bear interest at a floating rate per annum ranging from LIBOR plus 1.25% to LIBOR plus 2.00%, determined using a pricing grid based upon the Company's consolidated total leverage ratio from time to time, and the maturity for these loans were extended from January 1, 2023 to April 1, 2026. \$425 million of the senior secured term loan facilities continue to bear interest at a fixed rate per annum equal to 2.67% and mature on their originally scheduled maturity date of January 14, 2028.

On July 22, 2021, GPIL entered into an Incremental Facility Amendment to the Fourth Amended and Restated Credit Agreement for a Farm Credit System incremental term loan (the "Incremental Term A-3 Facility"). The Incremental Term A-3 Facility is a senior secured term loan in the aggregate principal amount of \$250 million maturing on July 22, 2028. The Incremental Term A-3 Facility bears interest at a floating rate ranging from LIBOR plus 1.50% to LIBOR plus 2.25%, determined using a pricing grid based upon GPIL's consolidated leverage ratio. As long as the Incremental Term A-3 Facility is outstanding, GPIL will be eligible to receive an annual patronage credit from the participating banks, which will be paid in cash and stock in the lead member bank. Patronage payable each year is variable and based on the individual financial performance of each of the member banks then participating in the loan. The Incremental Term A-3 Facility is governed by the same covenants as are set forth in the Amended and Restated Credit Agreement and is secured by a first priority lien and security interest in certain assets of GPIL.

On July 23, 2021, GPIL entered into Amendment No. 1 to the Amended and Restated Credit Agreement and the Fourth Amended and Restated Guarantee and Collateral Agreement and Incremental Facility Amendment (the "First Amendment"). The First Amendment provides for a delayed draw term loan facility in an aggregate amount of €210 million and a €25 million increase to the existing Euro-denominated revolving credit facility. The new term loan facility matures on April 1, 2026, is available to be drawn on or before May 12, 2022, and bears interest at a floating rate ranging from LIBOR plus 1.125% to LIBOR plus 1.75%, determined using a pricing grid based upon GPIL's consolidated total leverage ratio from time to time. The new term loan facility is governed by the same covenants as set forth in the Fourth Amended and Restated Credit Agreement and is secured by a first priority lien and security interest in certain assets of GPIL.

On September 29, 2021, GPIL completed a \$100 million tax-exempt green bond transaction through the Michigan Strategic Fund's Private Activity Bond Program (the "Green Bonds"). The Green Bonds are special limited obligations of the Michigan Strategic Fund, as issuer, payable from and secured by a pledge of payments to be made by GPIL under a loan agreement between the Michigan Strategic Fund and GPIL. The Green Bonds mature in 2061 and include mandatory purchase on October 1, 2026. The Green Bonds were issued at a price of 110.99% and bear interest at an annual rate of 4.0%. The equivalent yield is 1.70%. The net proceeds of \$109.5 million were used to fund a portion of its spend on the CRB platform optimization project that includes the construction of a new CRB machine at its Kalamazoo, Michigan mill. The bonds have been designated as Green Bonds primarily because the proceeds will be used to finance a solid waste disposal/recycling facility resulting in diversion of waste from landfills. In addition to the solid waste recycling aspect, the project improves the environmental footprint of its CRB mill system through expected reductions in water usage, energy consumption and greenhouse gas emissions.

*2020*

On October 15, 2020, GPIL entered into a new \$425 million term loan facility under the Third Amended and Restated Credit Agreement with member banks of the Farm Credit System (the "Incremental Term A-2 Facility"). The Incremental Term A-2 Facility had a delayed draw feature, and the Company drew the entire facility on January 14, 2021. On January 15, 2021, the Company used the proceeds, together with cash on hand, to redeem its 4.75% Senior Notes due in 2021 at par. The redemption included the outstanding principal amount plus accrued and unpaid interest. The Incremental Term A-2 Facility bears interest at a fixed rate of 2.67% due quarterly, matures January 14, 2028, and does not amortize. As long as the loan is outstanding, GPIL will be eligible to receive an annual patronage credit from the participating banks, which will be paid in cash and stock in the lead member bank. Patronage payable each year is variable and based on the individual financial performance of each of the member banks then participating in the loan.

The Fourth Amended and Extended Credit Agreement and the indentures governing the 4.875% Senior Notes due 2022, 4.125% Senior Notes due 2024, 0.821% Senior Notes due 2024, 1.512% Senior Notes due 2026, 4.75% Senior Notes due 2027, 3.50% Senior Notes due 2028 and 3.50% Senior Notes due 2029 (the "Indentures"), limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Current Credit Agreement and the Indentures may, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, repurchase stock, pay dividends and make other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the Indentures, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

As of September 30, 2021, the Company was in compliance with the covenants in the Fourth Amended and Restated Credit Agreement and the Indentures.

**NOTE 5 — STOCK INCENTIVE PLANS**

The Company has one active equity compensation plan from which new grants may be made, the Graphic Packaging Holding Company 2014 Omnibus Stock and Incentive Compensation Plan (the "2014 Plan"). The 2014 Plan allows for granting shares of stock, options, stock appreciation rights, restricted stock, restricted stock units ("RSUs"), restricted stock awards ("RSAs"), and other types of stock-based and cash awards. Awards under the 2014 Plan vest and expire in accordance with terms established at the time of grant. Shares issued pursuant to awards under the 2014 Plan are from GPHC's authorized but unissued shares. Compensation costs are recognized on a straight-line basis over the requisite service period of the award and are adjusted for actual performance for performance-based awards. As of September 30, 2021, there were 11.4 million shares remaining available to be granted under the 2014 Plan.

***Stock Awards, Restricted Stock and Restricted Stock Units***

Under the 2014 Plan, all RSUs granted to employees generally vest and become payable in three years from date of grant. RSUs granted to employees generally contain some combination of service and performance objectives based on various financial targets and relative total shareholder return that must be met for the RSUs to vest. RSUs and RSAs granted as deferred compensation for non-employee directors are fully vested but not payable until the distribution date elected by the director. RSAs issued to non-employee directors as part of their compensation for service on the Board are unrestricted on the grant date.

Data concerning RSUs and RSAs granted in the first nine months of 2021 is as follows:

			<b>Weighted Average Grant Date Fair Value Per Share</b>
RSUs — Employees and Non-Employee Directors	1,621,586	\$	16.02
Stock Awards — Board of Directors	55,055	\$	17.80

During the nine months ended September 30, 2021 and 2020, \$21 million and \$27 million, respectively, were charged to compensation expense for stock incentive plans and such amounts are included in Selling, General and Administrative expenses in the Condensed Consolidated Statements of Operations.

During the nine months ended September 30, 2021 and 2020, 1.2 million and 0.8 million shares were issued, respectively. The shares issued were primarily related to RSUs granted to employees during 2018 and 2017, respectively.

**NOTE 6 — PENSIONS AND OTHER POSTRETIREMENT BENEFITS**

The Company maintains both defined benefit pension plans and postretirement health care plans that provide medical and life insurance coverage to eligible salaried and hourly retired employees in North America and their dependents. The Company maintains international defined benefit pension plans which are either noncontributory or contributory and are funded in accordance with applicable local laws. Pension or termination benefits are based primarily on years of service and the employee's compensation.

In the first quarter of 2020, the Company, using the assets held within the pension trust, purchased a group annuity contract that transferred the remaining pension obligation under its largest U.S. pension plan of \$713 million to an insurance company. The Company incurred an additional non-cash settlement charge of \$153 million related to this transfer. These non-cash settlement charges relate to Net Actuarial Loss previously recognized in Accumulated Other Comprehensive Loss.

Amortization:				
Actuarial Loss	2	1	4	4
<b>Net Periodic Cost</b>	<b>\$ 2</b>	<b>\$ 4</b>	<b>\$ 7</b>	<b>\$ 163</b>

**Employer Contributions**

The Company made contributions of \$30 million and \$16 million to its pension plans during the first nine months of 2021 and 2020 respectively. In the first quarter of 2021, the Company made a \$14 million contribution to its remaining U.S. defined benefit plan by effectively utilizing a portion of the excess balance related to the terminated U.S. defined benefit plan. Excluding this \$14 million transfer, the Company expects to make contributions in the range of \$15 million to \$20 million for the full year of 2021. During 2020, the Company made \$19 million of contributions to its pension plans.

**NOTE 7 — FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT**

The Company enters into derivative instruments for risk management purposes only, including derivatives designated as hedging instruments under the *Derivatives and Hedging* topic of the FASB Codification and those not designated as hedging instruments under this guidance. The Company uses interest rate swaps, natural gas swap contracts, and forward exchange contracts. These derivative instruments are designated as cash flow hedges and, to the extent they are effective in offsetting the variability of the hedged cash flows, changes in the derivatives' fair value are not included in current earnings but are included in Accumulated Other Comprehensive Loss. These changes in fair value will subsequently be reclassified to earnings, contemporaneously with and offsetting changes in the related hedged exposure and presented in the same line of the income statement expected for the hedged item.

For more information regarding the Company's financial instruments and fair value measurement, see "Note 10 — Financial Instruments, Derivatives and Hedging Activities" and "Note 11 — Fair Value Measurement" of the Notes to the Consolidated Financial Statements of the Company's 2020 Form 10-K.

**Interest Rate Risk**

The Company uses interest rate swaps to manage interest rate risks on future interest payments caused by interest rate changes on its variable rate term loan facility. Changes in fair value will subsequently be reclassified into earnings as a component of Interest Expense, Net as interest is incurred on amounts outstanding under the term loan facility. The following table summarizes the Company's current interest rate swap positions for each period presented as of September 30, 2021:

Start	End	(In Millions) Notional Amount	Weighted Average Interest Rate
12/03/2018	01/01/2022	\$120.0	2.92%
12/03/2018	01/04/2022	\$80.0	2.79%

During the first nine months of 2021 and 2020, there were no amounts of ineffectiveness related to changes in the fair value of interest rate swap agreements. Additionally, there were no amounts excluded from the measure of effectiveness.

***Commodity Risk***

To manage risks associated with future variability in cash flows and price risk attributable to purchases of natural gas, the Company enters into natural gas swap contracts to hedge prices for a designated percentage of its expected natural gas usage. Such contracts are designated as cash flow hedges. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss and resulting gain or loss reclassified into Cost of Sales concurrently with the recognition of the commodity consumed. The Company has hedged approximately 33%, and 10% of its expected natural gas usage for the remainder of 2021 and all of 2022, respectively.

During the first nine months of 2021 and 2020, there were no amounts of ineffectiveness related to changes in the fair value of natural gas swap contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

***Foreign Currency Risk***

The Company enters into forward exchange contracts to manage risks associated with foreign currency transactions and future variability of cash flows arising from those transactions that may be adversely affected by changes in exchange rates. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss and gains/losses related to these contracts are recognized in Other (Income) Expense, Net or Net Sales, when appropriate.

At September 30, 2021, multiple forward exchange contracts existed that expire on various dates through the remainder of 2021. Those purchased forward exchange contracts outstanding at September 30, 2021 and December 31, 2020, when aggregated and measured in U.S. dollars at contractual rates at September 30, 2021 and December 31, 2020, had notional amounts totaling \$22 million and \$102 million, respectively.

No amounts were reclassified to earnings during the first nine months of 2021 or during 2020 in connection with forecasted transactions that were considered probable of not occurring and there was no amount of ineffectiveness related to changes in the fair value of foreign currency forward contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

***Derivatives not Designated as Hedges***

The Company enters into forward exchange contracts to effectively hedge substantially all of its accounts receivables resulting from sales transactions and intercompany loans denominated in foreign currencies in order to manage risks associated with variability in cash flows that may be adversely affected by changes in exchange rates. At September 30, 2021 and December 31, 2020, multiple foreign currency forward exchange contracts existed, with maturities ranging up to twelve months. Those foreign currency exchange contracts outstanding at September 30, 2021 and December 31, 2020, when aggregated and measured in U.S. dollars at contractual rates at September 30, 2021 and December 31, 2020, had net notional amounts totaling \$117 million and \$80 million, respectively. Unrealized gains and losses resulting from these contracts are recognized in Other (Income) Expense, Net and approximately offset corresponding recognized but unrealized gains and losses on the remeasurement of these accounts receivable.

***Deal Contingent Hedge***

On May 14, 2021, in connection with the AR Packaging acquisition, the Company entered into deal contingent foreign exchange forward contracts, with no upfront cash cost, to hedge 700 million Euros of the acquisition price. These forward contracts expire if the deal terminates or does not close by May 13, 2022 and are accounted for as derivatives under ASC 815, *Derivatives and Hedging*. Unrealized gains and losses resulting from these contracts are recognized in Business Combinations, Shutdown and Other Special Charges, and Exit Activities, Net on the Company's Condensed Consolidated Statements of Operations. For more information, see "Note 1 — General Information."

***Fair Value of Financial Instruments***

The Company's derivative instruments are carried at fair value. The Company has determined that the inputs to the valuation of these derivative instruments are Level 2 in the fair value hierarchy. Level 2 inputs are defined as quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. The Company uses valuation techniques based on discounted cash flow analyses, which reflect the terms of the derivatives and use observable market-based inputs, including forward rates, and uses market price quotations obtained from independent derivatives brokers, corroborated with information obtained from independent pricing service providers.

**GRAPHIC PACKAGING HOLDING COMPANY**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

As of September 30, 2021, there has not been any significant impact to the fair value of the Company's derivative liabilities due to its own credit risk. Similarly, there has not been any significant adverse impact to the Company's derivative assets based on evaluation of the Company's counterparties' credit risks. The following table summarizes the fair value of the Company's derivative instruments:

<i>In millions</i>	Derivative Assets <sup>(a)</sup>		Derivative Liabilities <sup>(b)</sup>

<sup>(a)</sup> Derivative assets of \$9 million and \$2 million are included in Other Current Assets as of September 30, 2021 and December 31, 2020, respectively. Derivative assets of \$1 million is included in Other Noncurrent Assets as of September 30, 2021.

<sup>(b)</sup> Derivative liabilities of \$2 million and \$9 million are included in Other Accrued Liabilities as of September 30, 2021 and December 31, 2020, respectively.

The fair values of the Company's other financial assets and liabilities at September 30, 2021 and December 31, 2020 approximately equal the carrying values reported on the Condensed Consolidated Balance Sheets except for Long-Term Debt. The fair value of the Company's Long-Term Debt (excluding finance leases and deferred financing fees) was \$4,095 million and \$3,625 million as compared to the carrying amounts of \$4,044 million and \$3,524 million as of September 30, 2021 and December 31, 2020, respectively. The fair value of the Company's Total Debt, including the Senior Notes, is based on quoted market prices (Level 2 inputs). Level 2 valuation techniques for Long-Term Debt are based on quotations obtained from independent pricing service providers.

**Accumulated Derivative Instruments (Loss) Income**

The following is a rollforward of pre-tax Accumulated Derivative Instruments (Loss) Income which is included in the Company's Condensed Consolidated Balance Sheet as of September 30, 2021:

<i>In millions</i>	
Balance at December 31, 2020	\$ (7)
Reclassification to Earnings	2
Current Period Change in Fair Value	13
<b>Balance at September 30, 2021</b>	<b>\$ 8</b>

At September 30, 2021, the Company expects to reclassify \$7 million of pre-tax gain in the next twelve months from Accumulated Other Comprehensive Loss to earnings, contemporaneously with and offsetting changes in the related hedged exposure. The actual amount that will be reclassified to future earnings may vary from this amount as a result of changes in market conditions.

**NOTE 8 — INCOME TAXES**

Substantially all the Company's operations are held through its investment in GPIP, a subsidiary that is classified as a partnership for U.S. income tax purposes and is generally not subject to domestic income tax expense. As a result, the consolidated financial statements exclude the domestic tax effect of the earnings attributable to the noncontrolling partner's interest in GPIP for the portion of the year in which the noncontrolling partner held an interest.

During the nine months ended September 30, 2021, the Company recognized Income Tax Expense of \$64 million on Income before Income Taxes of \$240 million. The effective tax rate for the nine months ended September 30, 2021 was different than the statutory rate primarily due to the tax effect of income attributable to noncontrolling interests as well as the mix and levels of earnings between foreign and domestic tax jurisdictions with and without a valuation allowance. In addition, during the second quarter, the Company recorded discrete tax expense of \$3 million related to the remeasurement of the net deferred tax liability for its UK subsidiaries due to the statutory tax rate increase enacted and \$5 million related to the remeasurement of deferred tax assets for executive compensation as a result of IP's exchange of its remaining shares in GPIP during the period. The Company also recorded a discrete tax benefit of \$7 million related to tax credit and other provision to return adjustments related to the 2020 U.S. federal income tax return during the third quarter.

**GRAPHIC PACKAGING HOLDING COMPANY**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

During the nine months ended September 30, 2020, the Company recognized Income Tax Expense of \$21 million on Income before Income Taxes of \$147 million. The effective tax rate for the nine months ended September 30, 2020 was different than the statutory rate primarily due to the tax effect of income attributable to noncontrolling interests as well as the mix and levels of earnings between foreign and domestic tax jurisdictions. In addition, during the nine months ended September 30, 2020, the Company recorded discrete benefits of \$8 million and \$4 million related to the release of valuation allowances against the net deferred tax assets of two of its wholly owned subsidiaries in Canada as a result of tax planning and the tax effect of tax credit and other provision to return adjustments related to the 2019 U.S. federal income tax return, respectively.

As discussed in Note 1, as a result of the February 19, 2021 and May 21, 2021 IP exchanges, the Company recorded an adjustment through Capital in Excess of Par Value to decrease its net domestic DTL by \$58 million and \$109 million, respectively. The decrease in the DTL reflects the change in the outside basis difference associated with the Company's investment in the partnership and includes the impact of the tax basis step up triggered by each exchange, pursuant to Section 754 of the Internal Revenue Code in addition to other changes to book and tax basis as a result of the Company's increased ownership interest in the partnership.

**NOTE 9 — ENVIRONMENTAL AND LEGAL MATTERS**

*Environmental Matters*

The Company is subject to a broad range of foreign, federal, state and local environmental, health and safety laws and regulations, including those governing discharges to air, soil and water, the management, treatment and disposal of hazardous substances, solid waste and hazardous wastes, the investigation and remediation of contamination resulting from historical site operations and releases of hazardous substances, the recycling of packaging and the health and safety of employees. Compliance initiatives could result in significant costs, which could negatively impact the Company's consolidated financial position, results of operations or cash flows. Any failure to comply with environmental or health and safety laws and regulations or any permits and authorizations required thereunder could subject the Company to fines, corrective action or other sanctions.

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historic operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, closures or sales of facilities may necessitate investigation and may result in remediation activities at those facilities.

The Company has established reserves for those facilities or issues where a liability is probable and the costs are reasonably estimable. The Company believes that the amounts accrued for its loss contingencies, and the reasonably possible loss beyond the amounts accrued, are not material to the Company's consolidated financial position, results of operations or cash flows. The Company cannot estimate with certainty other future compliance, investigation or remediation costs. Some costs relating to historic usage that the Company considers to be reasonably possible of resulting in liability are not quantifiable at this time. The Company will continue to monitor environmental issues at each of its facilities, as well as regulatory developments, and will revise its accruals, estimates and disclosures relating to past, present and future operations, as additional information is obtained.

*Legal Matters*

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

**NOTE 10 — RELATED PARTY TRANSACTIONS**

In connection with the NACP Combination, the Company entered into agreements with IP for transition services, fiber procurement fees, and corrugated products and ink supply. Payments to IP for the nine months ended September 30, 2021 for fiber procurement fees and corrugated products were \$4 million (related to pass through wood purchases of \$81 million) and \$13 million, respectively. Payments to IP for the nine months ended September 30, 2020 for fiber procurement fees and corrugated products were \$9 million (related to pass through wood purchases of \$154 million) and \$22 million, respectively. As discussed in Note 1, IP has no ownership interest remaining in GPIP as of May 21, 2021.

**NOTE 11 — SEGMENT INFORMATION**

The Company has three reportable segments as follows:

*Paperboard Mills* includes the eight North American paperboard mills that produce primarily CRB, CUK, and SBS, which is consumed internally to produce paperboard packaging for the Americas and Europe Packaging segments. The remaining paperboard is sold externally to a wide variety of paperboard packaging converters and brokers. The Paperboard Mills segment Net Sales represent the sale of paperboard only to external customers. The effect of intercompany transfers to the paperboard packaging segments has been eliminated from the Paperboard Mills segment to reflect the economics of the integration of these segments.

**GRAPHIC PACKAGING HOLDING COMPANY**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

*Americas Paperboard Packaging* includes paperboard packaging, primarily folding cartons, sold primarily to Consumer Packaged Goods ("CPG") companies, and cups, lids and food containers sold primarily to foodservice companies and Quick-Service Restaurants ("QSR"), serving the food, beverage, and consumer product markets in the Americas.

*Europe Paperboard Packaging* includes paperboard packaging, primarily folding cartons, sold primarily to CPG companies serving the food, beverage and consumer product markets in Europe.

The Company allocates certain mill and corporate costs to the reportable segments to appropriately represent the economics of these segments. The Corporate and Other caption includes the Pacific Rim and Australia operating segments and unallocated corporate and one-time costs.

These segments are evaluated by the chief operating decision maker based primarily on Income from Operations, as adjusted for depreciation and amortization. The accounting policies of the reportable segments are the same as those described above in "Note 1 — General Information."

**NOTE 14 — EXIT ACTIVITIES**

During 2019, the Company announced its plans to invest in a CRB platform optimization project, which included an investment in a new CRB paper machine in Kalamazoo, Michigan. At the time of the announcement, the Company expected to close two of its smaller CRB mills in 2022 in order to remain capacity neutral. During the third quarter of 2021, the Company decided to continue to operate one of these smaller CRB mills at least through 2022.

In March 2020, the Company made the decision to close the White Pigeon, Michigan CRB mill and shut down the PM1 containerboard machine in West Monroe, Louisiana. During the second quarter of 2020, the Company closed the White Pigeon, Michigan CRB mill and shut down the PM1 containerboard machine.

In June 2020, the Company made the decision to close certain converting facilities that were acquired from Greif. The Burlington, North Carolina converting facility and the Los Angeles, California converting facility were closed during 2020.

During the nine months ended September 30, 2021 and 2020, the Company recorded \$25 million and \$42 million of exit costs, respectively, associated with these restructurings. These costs are included in the Corporate and Other caption in "Note 11 — Segment Information." Other costs associated with the start-up of the new CRB paper machine will be recorded in the period in which they are incurred.

<sup>(a)</sup> Adjustments related to changes in estimates of severance costs.

In conjunction with the CRB platform optimization project and closure of the smaller CRB Mill, the Company currently expects to incur charges associated with these exit activities for post-employment benefits, retention bonuses and incentives in the range of \$15 million to \$20 million and for accelerated depreciation and inventory and asset write-offs in the range of \$50 million to \$55 million. Additionally, the Company expects to incur start-up charges of approximately \$15 million for the new CRB paper machine in 2021. Through September 30, 2021, the Company has incurred cumulative exit activity charges for post-employment benefits, retention bonuses and incentives of \$12 million, accelerated depreciation of \$42 million, and start-up charges for the new CRB paper machine of \$12 million.

For the closures of the White Pigeon, Michigan CRB mill and the shutdown of the PM1 containerboard machine in West Monroe, Louisiana, the Company has incurred cumulative exit activity charges for post-employment benefits of \$2 million and accelerated depreciation of \$17 million through September 30, 2021. The Company does not expect to incur any additional significant charges related to these closures.

**NOTE 15 — SUBSEQUENT EVENTS**

On October 6, 2021, GPIL entered into a \$400 million Incremental Facility Amendment to the Fourth Amended and Restated Credit Agreement (the "Incremental Term A-4 Facility"). The Incremental Term A-4 Facility has a delayed draw feature, and the Company expects to fund the new term loan on October 29, 2021. The Incremental Term A-4 Facility is collateralized by the same assets as GPIL's Senior Secured Facilities on a pari passu basis. The Incremental Term A-4 Facility will bear interest at a floating rate per annum equal to the Base Rate, the Eurocurrency Rate plus 0.875%, or the Daily Floating LIBOR Rate plus 0.875%, as selected by the Company. The loan matures on the earlier of fifteen months after the funding date, or upon issuing bonds or similar financing in an amount yielding at least \$350 million.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### INTRODUCTION

This management's discussion and analysis of financial conditions and results of operations is intended to provide investors with an understanding of the Company's past performance, financial condition and prospects. The following will be discussed and analyzed:

- Overview of Business
- Overview of 2021 Results
- Results of Operations
- Financial Condition, Liquidity and Capital Resources
- Critical Accounting Policies
- New Accounting Standards
- Business Outlook

### OVERVIEW OF BUSINESS

The Company's objective is to strengthen its position as a leading provider of sustainable fiber-based consumer packaging solutions. To achieve this objective, the Company offers customers its paperboard, cartons, cups, lids, foodservice containers and packaging machines, either as an integrated solution or separately. Cartons, carriers and containers are designed to protect and hold products. Product offerings include a variety of laminated, coated and printed packaging structures that are produced from the Company's coated-recycled paperboard ("CRB"), coated unbleached kraft paperboard ("CUK") and solid bleached sulfate paperboard ("SBS"). Innovative designs and combinations of paperboard, films, foils, metallization, holographics and embossing are customized to the individual needs of the customers.

The Company is implementing strategies (i) to expand market share in its current markets and to identify and penetrate new markets; (ii) to capitalize on the Company's customer relationships, business competencies, and mills and folding carton assets; (iii) to develop and market innovative, sustainable products and applications that benefit from consumer-led sustainability trends; and (iv) to continue to reduce costs by focusing on operational improvements. The Company's ability to fully implement its strategies and achieve its objectives may be influenced by a variety of factors, many of which are beyond its control, such as inflation of raw material and other costs, and the effect of overcapacity in the worldwide paperboard packaging industry.

#### *Significant Factors That Impact the Company's Business and Results of Operations*

*Impact of Inflation/Deflation.* The Company's cost of sales consists primarily of energy (including natural gas, fuel oil and electricity), pine and hardwood fiber, chemicals, secondary fibers, purchased paperboard, aluminum foil, ink, plastic films and resins, depreciation expense and labor. Costs increased in the first nine months of 2021 by \$229 million, compared to the first nine months of 2020 due to higher commodity inflation costs (\$189 million), labor and benefits (\$35 million) and other costs, net (\$5 million). Commodity inflation was primarily due to chemicals (\$52 million), freight (\$56 million), secondary fiber (\$26 million), external board (\$20 million), energy (\$21 million), wood (\$5 million), pallets (\$4 million), and other costs (\$5 million).

Because the price of natural gas experiences significant volatility, the Company has entered into contracts designed to manage risks associated with future variability in cash flows caused by changes in the price of natural gas. The Company has entered into natural gas swap contracts to hedge prices for a portion of its expected usage for 2021 and all of 2022. Since negotiated sales contracts and the market largely determine the pricing for its products, the Company is at times limited in its ability to raise prices and pass through to its customers any inflationary or other cost increases that the Company may incur.

*COVID-19 Pandemic.* Many uncertainties remain regarding the current coronavirus ("COVID-19") pandemic, including the anticipated duration of the pandemic, and the extent of local and worldwide social, political, and economic disruption it may cause. While the COVID-19 pandemic has not materially impacted the Company's overall business, operations, or financial results to date, it may have far-reaching impacts on many aspects of the Company's operations, including impacts on customer and consumer behaviors, business and manufacturing operations, inventory, accounts receivable, the Company's employees, and the market generally. The Company will continue to assess the evolving impact of the COVID-19 pandemic and intends to make adjustments to its business accordingly, such as to match the Company's supply with demand by adjusting mill maintenance outages and taking market downtime where appropriate.

*Commitment to Cost Reduction.* In light of continuing margin pressure throughout the packaging industry, the Company has programs in place that are designed to reduce costs, improve productivity and increase profitability. The Company utilizes a global continuous improvement initiative that uses statistical process control to help design and manage many types of activities, including production and maintenance. This includes a Six Sigma process focused on reducing variable and fixed manufacturing and administrative costs and the use of Lean Sigma principles in manufacturing and supply chain processes.

The Company's ability to continue to successfully implement its business strategies and to realize anticipated savings and operating efficiencies is subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control. If the Company cannot successfully implement the strategic cost reductions or other cost savings plans, it may not be able to continue to compete successfully against other manufacturers. In addition, any failure to generate the anticipated efficiencies and savings could adversely affect the Company's financial results.

*Competition and Market Factors.* As some products can be packaged in different types of materials, the Company's sales are affected by competition from other manufacturers' CRB, CUK, SBS, folding box board, and recycled clay-coated news. Additional substitute products also include plastic, shrink film and corrugated containers. In addition, while the Company has long-term relationships with many of its customers, the underlying contracts may be re-bid or renegotiated from time to time, and the Company may not be successful in renewing on favorable terms or at all. The Company works to maintain market share through efficiency, product innovation, service and strategic sourcing to its customers; however, pricing and other competitive pressures may occasionally result in the loss of a customer relationship.

In addition, the Company's sales are driven by consumer buying habits in the markets its customers serve. Recently, the Company has seen net organic sales growth driven by the consumers' desire for sustainable packaging solutions and increased at home consumption. Changes in consumer dietary habits and preferences, increases in the costs of living, unemployment rates, access to credit markets, as well as other macroeconomic factors, may negatively affect consumer spending behavior. New product introductions and promotional activity by the Company's customers and the Company's introduction of new packaging products also impact its sales.

*Debt Obligations.* The Company had an aggregate principal amount of \$4,154 million of outstanding debt obligations as of September 30, 2021. This debt has consequences for the Company, as it requires a portion of cash flow from operations to be used for the payment of principal and interest, exposes the Company to the risk of increased interest rates and may restrict the Company's ability to obtain additional financing. Covenants in the Company's Fourth Amended and Restated Credit Agreement and the indentures governing the 4.875% Senior Notes due 2022, 4.125% Senior Notes due 2024, 0.821% Senior Notes due 2024, 1.512% Senior Notes due 2026, 4.75% Senior Notes due 2027, 3.50% Senior Notes due 2028 and 3.50% Senior Notes due 2029 (the "Indentures") may, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, repurchase stock, pay dividends, make other restricted payments and make acquisitions or other investments. The Fourth Amended and Restated Credit Agreement also requires compliance with a maximum consolidated leverage ratio and a minimum consolidated interest coverage ratio. The Company's ability to comply in future periods with the financial covenants will depend on its ongoing financial and operating performance, which in turn will be subject to many other factors, many of which are beyond the Company's control. See "Covenant Restrictions" in "Financial Condition, Liquidity and Capital Resources" for additional information regarding the Company's debt obligations.

The debt and the restrictions under the Fourth Amended and Restated Credit Agreement and the Indentures could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The outstanding debt obligations and the restrictions may also leave the Company more vulnerable to a downturn in general economic conditions or its business, or unable to carry out capital expenditures that are necessary or important to its growth strategy and productivity improvement programs.

## OVERVIEW OF THIRD QUARTER 2021 RESULTS

This management's discussion and analysis contains an analysis of Net Sales, Income from Operations and other information relevant to an understanding of the Company's results of operations on a Consolidated basis:

- Net Sales for the three months ended September 30, 2021 increased \$84 million or 5% to \$1,782 million from \$1,698 million for the three months ended September 30, 2020 due to the acquisition of Americraft in Q3 2021, higher pricing, increased volume from conversions to fiber-based packaging solutions and new product introductions, mix, and favorable foreign exchange partially offset by lower core converting and open market volume.
- Income from Operations for the three months ended September 30, 2021 increased \$2 million or 2% to \$121 million from \$119 million for the three months ended September 30, 2020 due to higher prices and cost savings from continuous improvement and other programs, the timing of annual outages, and lower variable incentives offset by unfavorable commodity inflation and other inflation (primarily labor and benefits) and lower core converting and open market volume.

### Acquisitions

- On January 31, 2020, the Company acquired a folding carton facility from Quad/Graphics, Inc. ("Quad"), a commercial printing company. The converting facility is located in Omaha, Nebraska and is included in the Americas Paperboard Packaging reportable segment.
- On April 1, 2020, the Company acquired the Consumer Packaging Group business from Greif, Inc. ("Greif"), a leader in industrial packaging products and services. The acquisition included seven converting facilities across the United States, which are included in the Americas Paperboard Packaging reportable segment.

- On May 12, 2021, the Company announced its intent to acquire all of the shares of AR Packaging Group AB ("AR Packaging"), Europe's second largest producer of fiber-based consumer packaging, for approximately \$1.45 billion in cash, subject to customary adjustments. The \$1.45 billion acquisition price will be paid in Euros at close. As such, on May 14, 2021, the Company entered into deal contingent, foreign exchange forward contracts, with no upfront cash cost, to hedge 700 million Euros of the acquisition price. These forward contracts expire if the deal terminates or does not close by May 13, 2022 and are accounted for as derivatives under ASC 815, *Derivatives and Hedging*. The Company expects the AR Packaging acquisition to close in early November 2021.
- On July 1, 2021, the Company acquired substantially all the assets of Americraft Carton, Inc. ("Americraft"), the largest remaining independent folding carton converter in North America for \$292 million subject to customary working capital true-up. The acquisition included seven converting facilities across the United States and is reported within the Americas Paperboard Packaging reportable segment.

#### Share Repurchases and Dividends

- On July 29, 2021, the Company's board of directors declared a regular quarterly dividend of \$0.075 per share of common stock payable on October 5, 2021 to shareholders of record as of September 15, 2021.
- On January 28, 2019, the Company's board of directors authorized an additional share repurchase program to allow the Company to purchase up to \$500 million of the Company's issued and outstanding shares of common stock through open market purchases, privately negotiated transactions and Rule 10b5-1 plans (the "2019 share repurchase program"). During the first nine months of 2021, the Company did not repurchase any shares of its common stock under the 2019 share repurchase program. During the nine months ended September 30, 2020, the Company repurchased 18,896,538 shares of its common stock at an average price of \$13.31 under the 2019 share repurchase program. As of September 30, 2021, the Company has \$147 million available for additional repurchases under the 2019 share repurchase program.

##### Net Sales

<i>In millions</i>	Three Months Ended September 30,			
	2021	2020	Increase	Percent Change
Consolidated	\$ 1,782	\$ 1,698	\$ 84	5 %

The components of the change in Net Sales are as follows:

		Price	Volume/Mix	Exchange	Total	
Consolidated	\$ 1,698	\$ 53	\$ 20	\$ 11	\$ 84	\$ 1,782

The Company's Net Sales for the three months ended September 30, 2021 increased by \$84 million or 5% to \$1,782 million from \$1,698 million for the three months ended September 30, 2020 due to \$54 million of net sales related to the Americraft acquisition in the third quarter of 2021, higher pricing, increased volume from conversions to fiber-based packaging solutions and new product introductions, mix, and favorable foreign exchange, primarily the British Pound and Canadian dollar partially offset by lower core converting and open market volume. Core converting volumes were down driven by dry foods, frozen pizza, and cereal offset by increased volumes in foodservice packaging.

**Income from Operations**

<i>In millions</i>	Three Months Ended September 30,			
	2021	2020	Increase	Percent Change
Consolidated	\$ 121	\$ 119	\$ 2	2%

The components of the change in Income from Operations are as follows:

<i>In millions</i>	Three Months Ended September 30,							
	2020	Variances					Total	2021
		Price	Volume/Mix	Inflation	Exchange	Other <sup>(a)</sup>		
Consolidated	\$ 119	\$ 53	\$ (6)	\$ (101)	\$ (1)	\$ 57	\$ 2	\$ 121

<sup>(a)</sup> Includes the Company's cost reduction initiatives, planned mill maintenance costs, expenses related to acquisitions and integration activities, exit activities and shutdown and other special charges.

Income from Operations for the three months ended September 30, 2021 increased \$2 million or 2% to \$121 million from \$119 million for the three months ended September 30, 2020 due to higher prices and cost savings from continuous improvement and other programs, the timing of annual outages, and lower variable incentives offset by unfavorable commodity inflation and other inflation (primarily labor and benefits) and lower core converting and open market volume.

Inflation increased for the three months ended September 30, 2021 by \$101 million due to commodity inflation of \$88 million, labor and benefits of \$12 million, and other inflation of \$1 million. Commodity inflation was primarily due to freight (\$21 million), chemicals (\$17 million), external board (\$12 million), energy (\$11 million), secondary fiber (\$16 million), wood (\$9 million), and other costs (\$2 million).

**Interest Expense, Net**

Interest Expense, Net was \$29 million and \$32 million for the three months ended September 30, 2021 and 2020, respectively. Interest Expense, Net decreased due to lower effective interest rates, partly offset by an increase in debt balances as compared to the same period in the prior year. As of September 30, 2021, approximately 21% of the Company's total debt was subject to floating interest rates.

**Income Tax Expense**

During the three months ended September 30, 2021, the Company recognized Income Tax Expense of \$20 million on Income before Income Taxes of \$93 million. The effective tax rate for the three months ended September 30, 2021 is different than the statutory rate primarily due to the mix and levels of earnings between foreign and domestic tax jurisdictions with and without a valuation allowance, and due to discrete tax benefits recorded during the period of \$7 million related to tax credit and other return to provision adjustments related to the 2020 U.S. federal income tax return.

During the three months ended September 30, 2020, the Company recognized Income Tax Expense of \$8 million on Income before Income Taxes of \$87 million. The effective tax rate for the three months ended is different than the statutory rate primarily due to the mix and levels of earnings between foreign and domestic tax jurisdictions with and without a valuation allowance. In addition, during the three months ended September 30, 2020, the Company recorded discrete benefits of \$8 million and \$4 million related to the release of valuation allowances against the net deferred tax assets of two of its wholly owned subsidiaries in Canada as a result of tax planning and the tax effect of tax credit and other provision to return adjustments related to the 2019 U.S. federal income tax return, respectively.

The Company utilized its remaining U.S. federal net operating losses during 2020. However, based on tax benefits associated with planned capital projects, deductions associated with the increase in tax basis recorded as a result of the February 19, 2021 and May 21, 2021 share exchanges with IP, as well as tax credit carryforwards which are available to offset future U.S. federal income tax, the Company does not expect to be a meaningful U.S. federal cash taxpayer until 2024.

**FIRST NINE MONTHS 2021 COMPARED WITH FIRST NINE MONTHS 2020**
**Net Sales**

<i>In millions</i>	Nine Months Ended September 30,				Percent Change
	2021	2020	Increase		
Consolidated	\$ 5,168	\$ 4,908	\$ 260		5 %

The components of the change in Net Sales are as follows:

<i>In millions</i>	Nine Months Ended September 30,						2021

		Price	Volume/Mix	Exchange			
Consolidated	\$ 4,908	\$ 64	\$ 129	\$ 67	\$ 260	\$ 5,168	

The Company's Net Sales for the nine months ended September 30, 2021 increased by \$260 million or 5% to \$5,168 million from \$4,908 million for the nine months ended September 30, 2020 due to net sales of \$114 million from acquisitions including Americraft in the third quarter of 2021 and Greif and Quad in 2020, organic sales growth including conversions to our fiber-based packaging solutions and new product introductions, higher selling prices primarily in the third quarter of 2021, and favorable foreign exchange rates, primarily the British Pound, Euro, Canadian dollar, and the Australian dollar partially offset by lower volumes of our open market sales. The higher selling prices are the result of announced price increases, which benefit from market and inflationary pass throughs in the converting business. Core converting volumes were up primarily in foodservice packaging including cups, beverage, dairy products, and bakery offset by decreases in dry foods, cereal, tissue, and frozen pizza.

**Income from Operations**

<i>In millions</i>	Nine Months Ended September 30,				Percent Change
	2021	2020	Decrease		
Consolidated	\$ 324	\$ 394	\$ (70)		(18)%

The components of the change in Income from Operations are as follows:

<i>In millions</i>	Nine Months Ended September 30,							2021
	2020	Variances					Total	
		Price	Volume/Mix	Inflation	Exchange	Other <sup>(a)</sup>		
Consolidated	\$ 394	\$ 64	\$ 14	\$ (229)	\$ 6	\$ 75	\$ (70)	\$ 324

<sup>(a)</sup> Includes the Company's cost reduction initiatives, planned mill maintenance costs, expenses related to acquisitions and integration activities, exit activities and shutdown and other special charges.

Income from Operations for the nine months ended September 30, 2021 decreased \$70 million or 18% to \$324 million from \$394 million for the nine months ended September 30, 2020. Decreases were due to unfavorable commodity and other inflation, primarily labor and benefits and \$23 million of Winter Storm Uri related downtime and mitigation costs in the first quarter of 2021 net of insurance recoveries, and lower volumes of our open market sales partially offset by cost savings from continuous improvement and other programs and lower variable incentives, higher pricing, organic sales growth, acquisitions, and favorable foreign exchange.

Inflation increased for the nine months ended September 30, 2021 by \$229 million primarily due to higher commodity inflation of \$189 million, labor and benefits (\$35 million) and other costs (\$5 million). Commodity inflation was primarily due to chemicals (\$52 million), freight (\$56 million), secondary fiber (\$26 million), external board (\$20 million), energy (\$21 million), wood (\$5 million), pallets (\$4 million), and other costs (\$5 million).

**Nonoperating Pension and Postretirement Benefit**

Nonoperating Pension and Postretirement Benefit was income of \$4 million for the nine months ended September 30, 2021 versus an expense of \$151 million in 2020. The decrease was due to a settlement charge of \$153 million incurred during the first quarter of 2020 associated with the Company's purchase of a group annuity contract that transferred the remaining pension benefit obligation under the largest U.S. Plan of \$713 million to an insurance company.

**Interest Expense, Net**

Interest Expense, Net was \$88 million and \$96 million for the nine months ended September 30, 2021 and 2020, respectively. Interest Expense, Net decreased due to lower effective interest rates, partly offset by an increase in debt balances as compared to the same period in the prior year.

### Income Tax Expense

During the nine months ended September 30, 2021 and 2020, the Company recognized Income Tax Expense of \$64 million and \$21 million, respectively, on Income before Income Taxes and Equity Income of Unconsolidated Entity of \$240 million and \$147 million, respectively. The effective tax rate for the nine months ended September 30, 2021 is different than the statutory rate primarily due to the tax effect of income attributable to noncontrolling interests as well as the mix and levels of earnings between foreign and domestic tax jurisdictions with and without a valuation allowance. In addition, during the second quarter, the Company recorded discrete tax expense of \$3 million related to the remeasurement of the net deferred tax liability for its UK subsidiaries due to the statutory tax rate increase enacted and \$5 million related to the remeasurement of deferred tax assets for executive compensation as a result of IP's exchange of its remaining shares in GPIP during the period. The Company also recorded a discrete tax benefit of \$7 million related to tax credit and other provision to return adjustments related to the 2020 U.S. federal income tax return during the third quarter.

The effective tax rate for the nine months ended September 30, 2020 was different than the statutory rate primarily due to the tax effect of income attributable to noncontrolling interests as well as the mix and levels of earnings between foreign and domestic tax jurisdictions. In addition, the Company recorded discrete benefits of \$8 million and \$4 million related to the release of valuation allowances against the net deferred tax assets of two of its wholly owned subsidiaries in Canada as a result of tax planning and the tax effect of tax credit and other provision to return adjustments related to the 2019 U.S. federal income tax return, respectively.

### Segment Reporting

The Company has three reportable segments as follows:

*Paperboard Mills* includes the eight North American paperboard mills that produce primarily CRB, CUK, and SBS, which is consumed internally to produce paperboard packaging for the Americas and Europe Packaging segments. The remaining paperboard is sold externally to a wide variety of paperboard packaging converters and brokers. The Paperboard Mills segment's Net Sales represent the sale of paperboard only to external customers. The effect of intercompany transfers to the paperboard packaging segments has been eliminated from the Paperboard Mills segment to reflect the economics of the integration of these segments.

*Americas Paperboard Packaging* includes paperboard packaging, primarily folding cartons, sold primarily to Consumer Packaged Goods ("CPG") companies, and cups, lids and food containers sold primarily to foodservice companies and Quick-Service Restaurants ("QSR") serving the food, beverage, and consumer product markets in the Americas.

*Europe Paperboard Packaging* includes paperboard packaging, primarily folding cartons, sold primarily to CPG companies serving the food, beverage and consumer product markets in Europe.

The Company allocates certain mill and corporate costs to the reportable segments to appropriately represent the economics of these segments. The Corporate and Other caption includes the Pacific Rim and Australia operating segments and unallocated corporate and one-time costs.

These segments are evaluated by the chief operating decision maker based primarily on Income from Operations, as adjusted for depreciation and amortization. The accounting policies of the reportable segments are the same as those described above in "Note 1 — General Information" in the Notes to Condensed Consolidated Financial Statements.

## 2021 COMPARED WITH 2020

### Third Quarter 2021 Compared to Third Quarter 2020

#### *Paperboard Mills*

Net Sales increased from prior year due to higher selling prices and mix partially offset by lower open market volume across CRB, SUS and SBS and the shut down of the PM1 containerboard machine in West Monroe, Louisiana in 2020. The Company also internalized more paperboard tons.

Income from Operations increased due to productivity improvements, including benefits from capital projects, higher prices, the timing of annual outages, and mix offset by commodity inflation primarily secondary fiber, chemicals and energy and lower open market volume.

#### *Americas Paperboard Packaging*

Net Sales increased due to the Americraft acquisition, higher pricing, increased volume from conversions to our fiber-based packaging solutions, and new product introductions offset by lower core converting volume and mix. Lower volumes in dry foods, cereal, frozen pizza and beverage were offset by higher volume in foodservice packaging including cups. In beverage, volumes decreased in craft and specialty offset by big beer and soft drink.

Income from Operations decreased due to commodity inflation and other inflation (primarily labor and benefits) and lower core converting volume offset by higher selling prices, cost savings from continuous improvement and other programs and the timing of annual outages. The commodity inflation was primarily due to higher prices for freight, chemicals, secondary fiber, and external board.

#### *Europe Paperboard Packaging*

Net Sales increased due to increased pricing, mix, and favorable foreign currency exchange rates offset by decreased volumes led by consumer products.

Income from Operations increased due to cost savings through continuous improvement and other programs and increased pricing offset by mix, commodity inflation and higher labor and benefits costs.

### First Nine Months of 2021 Compared to First Nine Months of 2020

#### *Paperboard Mills*

Net Sales decreased from prior year due to lower open market volume offset by higher selling prices and mix. Lower open market volume was primarily due to the closure of the White Pigeon, Michigan CRB mill and shut down of the PM1 containerboard machine in West Monroe, Louisiana, both in 2020, and one fewer production and selling day due to leap year. The Company also internalized more paperboard tons.

Loss from Operations decreased due to the impacts of productivity improvements, including benefits from capital projects, and higher prices offset by commodity and other inflation, increased downtime and mitigation costs related to Winter Storm Uri, and lower open market volume. The commodity inflation was primarily due to higher prices for secondary fiber, chemicals, energy, and freight.

#### *Americas Paperboard Packaging*

Net Sales increased due to the Americraft, Greif, and Quad acquisitions, new product introductions, organic sales growth including conversions to our paperboard packaging solutions, increased pricing, and favorable foreign currency exchange rates. Higher volumes are primarily in foodservice packaging including cups, beverage, dairy products and bakery were offset by lower volumes in dry foods, cereal, and frozen pizza. In beverage, volumes increased in all categories including craft and specialty, big beer, and soft drinks.

Income from Operations decreased due to commodity inflation, other inflation (primarily labor and benefits), and downtime and mitigation costs related to Winter Storm Uri, and one few selling day due to leap year offset by higher selling prices, cost savings through continuous improvement and other programs, and higher volumes including from organic sales growth and acquisitions. The commodity inflation was primarily due to higher prices for freight, chemicals, secondary fiber, and external board.

#### *Europe Paperboard Packaging*

Net Sales increased due to increased volumes led by beverage and convenience, mix, higher prices, and favorable foreign currency exchange rates.

Income from Operations increased due to cost savings through continuous improvement and other programs, increased volumes, and pricing offset by commodity inflation and higher labor and benefits costs.

**FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES**

The Company broadly defines liquidity as its ability to generate sufficient funds from both internal and external sources to meet its obligations and commitments. In addition, liquidity includes the ability to obtain appropriate debt and equity financing and to convert into cash those assets that are no longer required to meet existing strategic and financial objectives. Therefore, liquidity cannot be considered separately from capital resources that consist of current or potentially available funds for use in achieving long-range business objectives and meeting debt service commitments.

**Cash Flows**

<i>In millions</i>	Nine Months Ended			
	September 30,			
	2021		2020	
Net Cash Provided by Operating Activities	\$	459	\$	389
Net Cash Used in Investing Activities	\$	(792)	\$	(477)
Net Cash Provided by (Used in) Financing Activities	\$	223	\$	(7)

Net cash provided by operating activities for the first nine months of 2021 totaled \$459 million compared to \$389 million for the same period in 2020. The favorable increase was mainly due to improved working capital compared to the prior year period driven by the Company's increased utilization of its accounts receivable sale and securitization programs during 2021. Pension contributions for the first nine months of 2021 and 2020 were \$30 million and \$16 million, respectively. In the first quarter of 2021, the Company made a \$14 million contribution to its remaining U.S. defined benefit plan by effectively utilizing a portion of the excess balance related to the terminated U.S. defined benefit plan.

Net cash used in investing activities for the first nine months of 2021 totaled \$792 million, compared to \$477 million for the same period in 2020. Capital spending was \$588 million and \$426 million in 2021 and 2020, respectively. In 2021, the Company paid \$292 million for the Americraft acquisition. In 2020, the Company paid \$41 million and \$80 million for the Quad and Greif acquisitions, respectively. Net cash receipts related to the accounts receivable securitization and sale programs were \$91 million and \$79 million in 2021 and 2020, respectively.

Net cash provided by financing activities for the first nine months of 2021 totaled \$223 million, compared to \$7 million used in financing activities for the same period in 2020. Current year activities include a debt drawing of \$425 million Incremental Term A-2 Facility and the use of the proceeds, together with cash on hand, to redeem the 4.75% Senior Notes due in 2021, and a debt drawing of \$250 million Incremental Term A-3 Facility. Other current year activities include an offering of \$400 million aggregate principal amount of 0.821% Senior Notes due 2024, an offering of \$400 million aggregate principal amount of 1.512% Senior Notes due 2026. The net proceeds of \$800 million were used by the Company to repay a portion of the outstanding borrowings under GPIL's term loan credit facilities, which is under its senior secured credit facility. Additionally, the Company had an offering of \$100 million aggregate principal amount of tax-exempt green bonds, with the net proceeds of \$111 million used to reimburse GPIL for a portion of its CRB platform optimization project. The Company also paid \$150 million toward the redemption of IP's ownership interest in GPII, and \$43 million Tax Receivable Agreement (TRA) payment related to IP exit. Additionally, the Company made borrowings under revolving credit facilities primarily for capital spending, redemption of IP's ownership interest, and payments on debt of \$13 million. The Company also paid dividends and distributions of \$71 million and withheld \$15 million of restricted stock units to satisfy tax withholding obligations related to the payout of restricted stock units. In the prior year period, the Company had a debt offering of \$450 million aggregate principal amount of 3.50% Senior Notes due 2028, and a debt offering of \$350 million aggregate principal amount of 3.50% senior notes due 2029. The Company also paid \$500 million toward the redemption of IP's ownership interest in GPII. In the prior year period, the Company also made borrowings under revolving credit facilities primarily for capital spending, redemption of IP's ownership interest, repurchase of common stock and payments on debt of \$27 million. The Company also paid dividends and distributions of \$80 million and withheld \$9 million of restricted stock units to satisfy tax withholding payments related to the payout of restricted stock units.

**Supplemental Guarantor Financial Information**

As discussed in "Note 1 – General Information" in the Notes to Condensed Consolidated Financial Statements, on May 21, 2021, IP exchanged its remaining 22.8 million partnership units for an equivalent number of shares of GPHC common stock. As a result, IP has no ownership interest remaining in GPII as of May 21, 2021, and GPII is no longer subject to separate SEC filing requirements. As such, the Company has included Supplemental Guarantor disclosures that were previously included in the GPII SEC filings effective June 30, 2021.

As further discussed in "Note 4 – Debt" in the Notes to Condensed Consolidated Financial Statements, the Senior Notes issued by GPII (the "Issuer") are guaranteed by certain domestic subsidiaries (the "Subsidiary Guarantors"), which consist of all material 100% owned subsidiaries of GPII other than its foreign subsidiaries and in certain instances by the Company (a Parent guarantee) (collectively "the Guarantors"). GPII's remaining subsidiaries (the "Nonguarantor Subsidiaries") include all of GPII's foreign subsidiaries and immaterial domestic subsidiaries. The Subsidiary Guarantors are jointly and severally, fully and unconditionally liable under the guarantees.

Other than tax related items, the results of operations, assets, and liabilities for GPHC and GPIL are substantially the same. Therefore, the summarized financial information below is presented on a combined basis, consisting of the Issuer and Subsidiary Guarantors (collectively, the “Obligor Group”), and is presented after the elimination of: (i) intercompany transactions and balances among the Issuer and Subsidiary Guarantors, and (ii) equity in earnings from and investments in the Nonguarantor Subsidiaries.

## Liquidity and Capital Resources

The Company's liquidity needs arise primarily from the funding of its capital expenditures and acquisitions, debt service on its indebtedness, ongoing operating costs, working capital, share repurchases and dividend payments. Principal and interest payments under the term loan facilities and the revolving credit facilities, together with principal and interest payments on the Company's 4.875% Senior Notes due 2022, 4.125% Senior Notes due 2024, 0.821% Senior Notes due 2024, 1.512% Senior Notes due 2026, 4.75% Senior Notes due 2027, 3.50% Senior Notes due 2028 and 3.50% Senior Notes due 2029 (the "Indentures"), represent liquidity requirements for the Company. Based upon current levels of operations, anticipated cost savings and expectations as to future growth, the Company believes that cash generated from operations, together with amounts available under its revolving credit facilities and other available financing sources, will be adequate to permit the Company to meet its debt service obligations, necessary capital expenditure program requirements and ongoing operating costs and working capital needs, although no assurance can be given in this regard. The Company's future financial and operating performance, ability to service or refinance its debt and ability to comply with the covenants and restrictions contained in its debt agreements (see "Covenant Restrictions" below) will be subject to future economic conditions, including conditions in the credit markets, and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices and demand for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business and profitability strategies. Refer to "Note 4 — Debt" in the Notes to Condensed Consolidated Financial Statements for additional information on the Company's availability under its revolving credit facilities.

The Company has entered into agreements to sell, on a revolving basis, certain trade accounts receivable to third party financial institutions. Transfers under these agreements meet the requirements to be accounted for as sales in accordance with the *Transfers and Servicing* topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification (the "Codification"). The loss on sale is not material and is included in Other (Income) Expense, Net line item on the Condensed Consolidated Statement of Operations. The following table summarizes the activity under these programs for the nine months ended September 30, 2021 and 2020, respectively:

<i>In millions</i>	Nine Months Ended September 30,	
	2021	2020

<sup>(a)</sup>Included in Other Current Assets on the Condensed Consolidated Balance Sheet and represents a beneficial interest in the receivables sold to the financial institutions, which is a Level 3 fair value measure.

The Company participates in supply chain financing arrangements offered by certain customers and has entered into various factoring arrangements that also qualify for sale accounting in accordance with the *Transfers and Servicing* topic of the FASB Codification. For the nine months ended September 30, 2021 and 2020, the Company sold receivables of \$493 million and \$238 million, respectively, related to these factoring arrangements.

Receivables sold under all programs subject to continuing involvement, which consists principally of collection services, were \$661 million and \$621 million as of September 30, 2021 and December 31, 2020, respectively.

## Covenant Restrictions

Covenants contained in the Current Credit Agreement and the Indentures may, among other things, limit the ability to incur additional indebtedness, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, repurchase shares, pay dividends and make other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the indentures under which the Notes are issued, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions, together with disruptions in the credit markets, could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Fourth Amended and Restated Agreement, the Company must comply with a maximum Consolidated Total Leverage Ratio covenant and a minimum Consolidated Interest Expense Ratio covenant. The Fourth Amended and Restated Credit Agreement, which contains the definitions of these covenants, was filed as an exhibit to the Company's Form 8-K filed on April 1, 2021.

The Fourth Amended and Restated Agreement requires that the Company maintain a maximum Consolidated Total Leverage Ratio of less than 4.25 to 1.00. At September 30, 2021, the Company was in compliance with such covenant and the ratio was 3.65 to 1.00. The Company also amended the step-up of the maximum Consolidated Total Leverage Ratio for material acquisitions to less than 5.00 to 1.00 through the later of (i) the fourth full quarter after the closing of the AR Packaging transaction and (ii) the quarter ended December 31, 2022 after which the maximum ratio will step back down to 4.25 to 1.00.

The Company must also comply with a minimum Consolidated Interest Expense Ratio of 3.00 to 1.00. At September 30, 2021, the Company was in compliance with such covenant and the ratio was 9.64 to 1.00.

As of September 30, 2021, the Company's credit was rated BB+ by Standard & Poor's and Ba1 by Moody's Investor Services. Standard & Poor's and Moody's Investor Services' ratings on the Company included a stable outlook.

### **Capital Investment**

The Company's capital investment in the first nine months of 2021 was \$588 million compared to \$426 million in the first nine months of 2020. The capital investments were primarily due to planned asset upgrades at the U.S.-based mills, including the new CRB paper machine in Kalamazoo, MI discussed in "Note 14 — Exit Activities" in the Notes to Condensed Consolidated Financial Statements and continued investments made as part of the integration of acquisitions.

### **Environmental Matters**

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, closures or sales of facilities may necessitate further investigation and may result in remediation at those facilities. The Company has established reserves for those facilities or issues where liability is probable and the costs are reasonably estimable.

For further discussion of the Company's environmental matters, see "Note 9 — Environmental and Legal Matters" in the Notes to Condensed Consolidated Financial Statements.

### **CRITICAL ACCOUNTING POLICIES**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. Actual results could differ from these estimates, and changes in these estimates are recorded when known. The critical accounting policies used by management in the preparation of the Company's condensed consolidated financial statements are those that are important both to the presentation of the Company's financial condition and results of operations and require significant judgments by management with regard to estimates used.

The Company's most critical accounting policies, which require significant judgment or involve complex estimations, are described in GPHC's Form 10-K for the year ended December 31, 2020.

The Company performed its annual goodwill impairment tests as of October 1, 2020. The Company concluded that all reporting units with goodwill have a fair value that exceeds their carrying value, and thus goodwill was not impaired. The Foodservice and Australia reporting units had fair values that exceed their respective carrying values by 17% and 37%, respectively, whereas all other reporting units exceeded by more than 45%. The Foodservice and Australia reporting units had goodwill totaling \$43 million and \$15 million, respectively at September 30, 2021. While the Company does not believe that the impact on the business to date of the COVID-19 pandemic has triggered the need to perform an impairment test on goodwill, the Company will continue to assess the impact on its business and will perform its annual goodwill impairment tests as of October 1, 2021.

### **NEW ACCOUNTING STANDARDS**

For a discussion of recent accounting pronouncements impacting the Company, see "Note 1 — General Information" in the Notes to Condensed Consolidated Financial Statements.

### **BUSINESS OUTLOOK**

Total capital investment for 2021 is expected to be approximately \$775 million.

The Company also expects the following in 2021:

- Depreciation and amortization expense of approximately \$460 million, excluding \$5 million of pension amortization and \$17 million of accelerated depreciation related to exit activities.
- Pension plan contributions between \$15 million and \$20 million, excluding \$14 million reflected as a contribution to the remaining U.S. defined benefit plan that effectively utilized a portion of the excess balance related to the terminated U.S. defined benefit plan.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK**

For a discussion of certain market risks related to the Company, see Part II, “*Item 7A, Quantitative and Qualitative Disclosure about Market Risk*”, in GPHC’s Form 10-K for the year ended December 31, 2020. There have been no significant developments with respect to derivatives or exposure to market risk during the first nine months of 2021. For a discussion of the Company’s Financial Instruments, Derivatives and Hedging Activities, see GPHC’s Form 10-K for the year ended December 31, 2020 and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition, Liquidity and Capital Resources.*”

### **ITEM 4. CONTROLS AND PROCEDURES**

#### *Disclosure Controls and Procedures*

The Company’s management has carried out an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon such evaluation, management has concluded that the Company’s disclosure controls and procedures were effective as of September 30, 2021.

#### *Changes in Internal Control over Financial Reporting*

There was no change in the Company’s internal control over financial reporting that occurred during the fiscal quarter ended September 30, 2021 that has materially affected, or is likely to materially affect, the Company’s internal control over financial reporting.

## PART II — OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. For more information see "Note 9 — *Environmental and Legal Matters*" in the Notes to Condensed Consolidated Financial Statements.

### ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in GPHC's Form 10-K for the year ended December 31, 2020.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The Company purchases shares of its common stock from time to time pursuant to the 2019 share repurchase program announced on January 28, 2019. Management is authorized to purchase up to \$500 million of the Company's issued and outstanding common stock per the 2019 share repurchase program. During the third quarter of 2021, the Company did not repurchase any shares of its common stock. As of September 30, 2021, 66.5 million shares had been repurchased as part of a publicly announced program. The maximum number of shares that may be purchased under the 2019 share repurchase program in the future is 7.7 million based on the closing price of the Company's common stock as of September 30, 2021.

### ITEM 4. MINE SAFETY DISCLOSURES
