5.3. Advice for fire-fighters:

Highly flammable liquid and vapour. Remove all ignition sources. Vapours may form explosive mixtures with air. Wear self-contained breathing apparatus and complete personal protective equipment. Containers located near the fire should be removed or cooled with water spray, due to the risk of bursting and explosion.

Section 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate place and remove the people who do not have suitable protective equipment. Eliminate sources of ignition. Do not use sparking tools. Use eye and skin protection. Avoid breathing vapours. Provide adequate ventilation.

6.2. Environmental precautions

Prevent entering to drains, surface water, groundwater and soil.

6.3. Methods and material for containment and cleaning up

Soak up small spills with inert solids (such as vermiculite, clay) and sweep/shovel into disposal container. Wash spill area with strong detergent and water solution; rinse with water, but minimize water use during clean-up. Do not flush to sewer! Contents of damage containers should be placed in new, hermetic container. Disperse vapours with water spray.
